UVS Section 508 Management Solution

With the ever expanding digital accessibility needs, We at UVS are excited to provide a complete fully managed Section 508 solution to any organization seeking to establish and maintain Section 508 compliance for web pages and electronic documents. UVS's Section 508 expert services and AI-driven automated models enable us to accomplish such a task. Artificial Intelligence allows us to provide our customers with an efficient and cost-effective strategy through an automated process and our comprehensive manual services go beyond the compliance requirements of Section 508 by providing Section 508 remediation support, Section 508 Subject Matter Expert support, enhanced analytic data, and 24/7/365 SLA managed compliance support. At UVS, we are highly devoted to strengthening accessibility procedures at the federal as well as commercial levels in order to fulfill section 508 requirements, boost efficiency, increase evaluation turnaround times, reduce overhead expenses, and improve productivity.
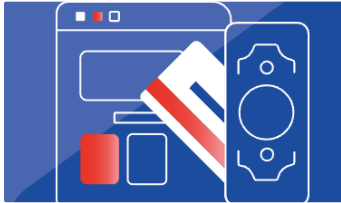

Automated Rapid Assessments

A comprehensive solution that converts the error-prone manual Section 508 assessment & reporting process into an efficient, dependable, and affordable quick procedure.

Electronic Document Remediation

Expert electronic document remediation services are offered for PDF and Microsoft Office (Word documents, Excel documents, PowerPoint presentations).
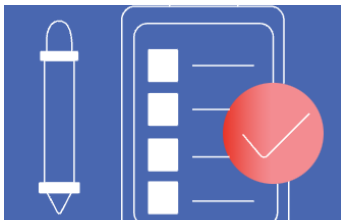

Section 508 Services

Professional Accessibility services that assure full compliance with Section 508 legislation and other Accessibility requirements, as well as assistance and monitoring 24 hours a day, seven days a week.

Automated Rapid Assessments

ACaaS (Accessibility Compliance as a Service) is a completely automated web page and electronic document scanning tool that uses artificial intelligence (AI) and machine learning (ML) algorithms to augment the human section 508 review method. It is a highly secure and internally managed solution that eliminates the costs and hassles associated with maintaining a Section 508 compliance project. Through automated evaluations and skilled UVS remedial services, ACaaS can integrate and contribute to any Section 508 program, substantially reducing resource costs and enhancing efficiency.

Electronic Document Remediation

Provide professional and competent solutions to ensure that electronic documents (PDF, Word/Excel, and PowerPoint) are Section 508, WCAG 2.0/2.1, and ADA compliant. Create a collaborative communication channel with our accessibility specialist for the following.

- ACaaS Automated document reporting support

- UVS Section 508 SME Support + Usability Guidance

- Accessibility Compliance Road Map

- Reasonable Accommodation Services
